# GREENERCLEANEVENT

And the downtown sparkled – a little damp weather did not stop the downtown business community from showing their pride and coming out to clean the windows with the help of RONA Home and Garden and their new ECO line of environmentally friendly products and a free squeegee.

On EARTH DAY, Wednesday, April 22, 2009 the BDDC and RONA teamed up with the Downtown Street Front Business to come out and clean their windows.

The Brampton Clean City Committee has a number of Spring Clean Up initiatives across Brampton during the month of April. Be sure to check out their website <http://www.city.brampton.on.ca/cleancity/events.tml>.
